## ABOUT MARK:

In a moments time, life can change in the most unpredictable way. We may not understand the obstacles we are given, but we certainly have the strength to overcome the unforeseen. This stands true for the DeFilippo family.

On May 6, 2013, their lives were forever changed. Mark DeFilippo and his son Matthew were returning home from kindergarten orientation when his truck was struck by another car causing it to flip. By some miracle Matthew was unharmed, and the other miracle was that their 1 year old son Michael was not in the car. Unfortunately, Mark suffered catastrophic injuries to his spine rendering him a quadriplegic. He is currently undergoing rehab at Kessler in New Jersey.

Mark, is a local Home Builder, Farmington Valley Mudhogs Flag Football coach, Farmington Little League baseball coach, and Bristol Fishing & Game Club member. He is a lifelong Farmington resident. The family has deep roots in the community. His sister is Lisa Sweeney. Mark's wife, Kasia is a nurse at John Dempsey Hospital in Farmington.

He is scheduled to be discharged in 3 weeks, but his home is not conducive for his condition. In addition, they lack the appropriate vehicle to transport him to upcoming doctor visits. All of which are not covered by medical insurance. Unfortunately, this accident has significantly impacted their finances. The medical expenses are becoming more difficult to manage. Mark is undoubtedly a fighter and will continue to make strides in achieving his goals. He aspires to coach youth baseball and share his love for fishing with his youngest son, Michael. Please consider helping the DeFilippo family by supporting their needs.
